Why can't this Big Brother Organization **suspend this program for just one year** (just this year alone) to allow our youths to concentrate on getting their PVC and voting for the right sets of politicians into their Local Government, Constituency, Governors and President, why can't they just do that for our darling nation?!

Why not allow them take their destinies in their hands for a better and brighter future, rather than all this yearly distractions?  
Sigh!

Iâ€™m a huge fan of this show but this is the last thing we need right now because the future of our country is at stake!  
Let them postpone this shit and stop trying to distract us from Reality!

Good to see some of their fans see reasons with and understand our stance in this.  
We will get there as a nation, someday soon.
